

Stat. 1894) regarding possession have been satisfied.

(1) The Division or District Engineer will ascertain from the United States Attorney the date on which the condemnation proceeding with declaration of taking is filed and the date on which possession is available. The using service of the Army and Air Force or the local representative of other agencies will be informed of the date on which possession of the land is available.

(2) The above information, together with the civil number assigned to the case, and a copy of the complaint and order of possession will be furnished to HQDA (DAEN-REA-C) WASH DC 20314 within six weeks after the date the case was forwarded by the Chief of Engineers to the Department of Justice. If this cannot be accomplished, an explanation will be furnished by such date.

(3) Where an Order of Possession is obtained but the landowner refuses to comply, it may be necessary to obtain a Writ of Assistance from the court. Prior to requesting the United States Attorney to obtain such a Writ, all pertinent facts should be reported to DAEN-REA-C.

(4) The United States Attorney should be requested to have judgment entered in accordance with the terms of any accepted Offers to Sell immediately after the filing of the case, since delay in taking such action works to the disadvantage of the Government. Any difficulty in securing prompt action by the United States Attorney in this matter should be reported to DAEN-REA-C.

(j) *Amendments.* (1) If at any time it becomes necessary to amend a complaint or declaration of taking previously filed, an amendment assembly will be submitted to DAEN-REA-C together with a full statement of the facts requiring the amendment. The letter of transmittal should certify that the tracts affected by the amendment have not been adjudicated.

(2) No amendment should be submitted which will result in a revestment of an interest in property, unless a stipulation for revestment has been obtained from the former owner in accordance with § 644.115.

(3) If, after the filing of a declaration of taking, a substantially higher appraisal is approved for any reason, and a settlement does not appear imminent, an amendment will be submitted promptly to increase the amount of the deposit.

(k) *Alternate form declaration of taking.* An alternate form of Declaration of Taking has been approved by the Judicial Conference on an optional basis, and must be used where the local District Court requires. Under this form a Declaration of Taking may have up to 15 ownerships, but each ownership will be set up separately so that it may be included in a separate civil action. In other words, there may be up to 15 separate civil actions which are keyed in to one Declaration of Taking. An example of this type of Declaration is included in Figure 5-5 in ER 405-1-12. In this form, Schedule "A" will include the authority and public uses. Schedule "B" will include the description, the estimated compensation, and the estate to be acquired. Schedule "C" will be the plan showing the land to be acquired. It will be noted that there will be a separate Schedule "A", "B", and "C" for each ownership. The schedules may include more than one tract where the ownership is unified and is an economic unit. All of the civil actions will be keyed in to the Declaration of Taking by a Master File number. The Master File number must be used on all correspondence pertaining to tracts in this type of an assembly.

§ 644.115 Revestment of title by stipulation.

When fee title or an interest in property has been acquired by the United States by declaration of taking in a condemnation proceeding and it is determined to be in the best interest of the Government to wholly or partially exclude said property or interests therein, or to acquire a lesser estate, such exclusion or diminution in the estate can be accomplished by stipulation with the former owner under the provisions of the Act of Congress approved October 21, 1942 (40 U.S.C. 258f).

(a) *Required approval.* All stipulations involving a revestment of title must be forwarded to DAEN-REA-C for approval with a full statement of the

facts, related data and recommendations. Approval of the revestment action must be obtained from the appropriate using agency. Such stipulations will not be filed in the condemnation proceedings by the United States Attorney until the specific approval of the Chief of Engineers is obtained and the matter coordinated by the Chief of Engineers with the Department of Justice. It should be stressed in negotiations that final approval of the stipulation is under the jurisdiction of the Attorney General, based on the recommendation of the Chief of Engineers.

(b) *Reduction of price.* A stipulation for revestment should provide for a deduction from the agreed price or from the ultimate award of an amount equal to the difference between the value of the property originally taken and the value of said property after the proposed exclusion of a part thereof or acquisition of a lesser interest therein, *i.e.*, the stipulation should be an overall settlement of the case whenever possible. If it is impossible to reach an amicable agreement for complete settlement for the Government's acquisition of the tract, an agreement as to the area and estate, leaving final determination as to compensation with the court, may be submitted with facts showing that the proposed action is in the best interest of the Government. The stipulation should also include a release concerning any benefits under section 304, Pub. L. 91-646 (84 Stat. 1894), because of the revestment, particularly when no agreement is reached concerning compensation.

(c) *Required information.* A sample stipulation for revestment is contained in Figure 5-8 in ER 405-1-12 which may be adapted to fit the particular project and tract involved. In this connection, the following requirements should be observed:

(1) The stipulation will not provide for any change in the amount of the deposit unless the stipulation provides for an overall settlement of the case or the entire tract is to be excluded from the acquisition.

(2) The areas in which the Government has acquired an interest and those in which an interest will be re-

tained after the revestment will be fully described.

(3) The estates to be retained by the Government after the revestment will be accurately described; where the owner reserves mineral or other interests or use, appropriate restriction of exploration and subordination to the paramount right of the Government to use the property for the required purpose will be included.

(4) The stipulation should include, as part of the consideration:

(i) Consent by the former owner to the Government's acquisition of the revised area and the estates therein in the event the stipulation is approved.

(ii) Withdrawal of any answer contesting the Government's right to acquire the property and any interrogatories theretofore filed.

(iii) A waiver of any and all claims by the former owner, his heirs and assigns, against the United States, the State, County and political subdivisions thereof for loss of access to the land (where applicable).

(5) The stipulation will include, as an exhibit, maps delineating the fee area in red, the easement area in blue, and the area to be revested in yellow.

(6) The letter of transmittal in connection with any revestment in Civil Works projects should include information as to whether the area in which title is to be revested has a potential for recreational use without regard to the currently established public access areas.

(d) *Application.* The foregoing procedure applies only to instances where a declaration of taking has been filed. Where only a complaint has been filed, the necessary revisions may be made by securing a satisfactory Offer to Sell and deeds to the United States, or by amending the complaint and filing a declaration of taking containing the revised descriptions or estates.

§ 644.116 Distribution, reservations, and title evidence.

Distribution of the estimated compensation deposited in the registry of the court is the responsibility of the United States District Court. However, the Division or District Engineer will assist the United States Attorney in arranging for the distribution of funds
